### **Background:**

54 Steps is a four piece variety and original rock band located in the Tidewater area of Virginia. Strong musical influences from former bands "America" and "Creedence Clearwater Revival" and steadfast artists "Neil Young", "Tom Petty", "John Mellencamp" and "The Rolling Stones" can be heard in each performance. These influences, along with the band's own material, provide a unique blending of variety rock n' roll that pivots the crowd onto the dance floor everywhere 54 Steps play.

Their music has been described by many as "no frills rock n' roll" and their professional stage presence has had them asked back to almost every venue they have played. Almost everyplace...except that one place out in.....

### **Songs:**

Ocean City Fool  
CATCH 22  
She Talks too Much  
Slow Screw  
I Cry for you  
James Brown Said That
