Background:

Gloomy gothic punk...pounding rythms... tape" - Factsheet Five #29

Rocorded by idle edsel who helped form the Pimps in 1996 which became THE STRAY-PONyS. idle plays bass for the Candy Snatchers now.

Idle, Diederich and Mark Waldrop formed Diedrop. We had a band The Un-Called Four after High School and both went to Virginia Tech for college. Mark was an unreal drum player. In High School he had this 60's convertable Mustang that his dad restored and we would go in it to go Surfing with these short boards sticking out. Mark plays with some big acts in Nashville last time I heard from him. We lived in Kings Grant. The Diederichs had 13 kids so there was this long line of old cars out front at the time. This was recorded this on a Tascam 4 Track cassette recorder in 1996 at idles house on Little Neck Point Road in Virginia Beach VA, USA.
