**Background:**

He performed with many bands as well as with the Virginia Symphony. He formed a Jazz Trio and recorded two independent Jazz albums where he wrote and arranged much of the music. While Tim still enjoys performing his Jazz music and has a new Jazz album in the works, he is making a concentrated effort as a Country Music solo artist. He recently completed recording a full length album, "Lucky You", and a six track EP, "...May I Live In Your World". He arranged and produced all of the songs. The music is like none other and is a total reflection of the talent and passion of Tim McDonald. Songs from both are currently available for download. CDs and Flash Drives will be available in the near future.
